Information System Confidential and Proprietary Information

Dear Ms. Lewis

In response to your letter of November 20, 2008 regarding materials which CSC deemed confidential in our original proposal ("Proposal") and later submissions to North Carolina, CSC is providing CDs reflecting the issues you raised.

You note that CSC's Proposal contained a marking on the cover page restricting use of the Proposal material, which CSC stated was applicable to all of the Technical Proposal submissions. A similar legend was placed on each page of the Cost proposals. However, you conclude that that these markings are not in accordance with the 09 NCAC 06B.1001 or RFP Section 30.27.

CSC's is complying with your directive and encloses two (2) CDs. On one, material deemed Trade Secrets under North Carolina law is removed. On the other, which is the State's internal, working version, all material is included. On both, the use of the restrictive legends is modified.

If you have any questions regarding these materials and submissions, please contact me at dsagner@csc.com or (301) 921-3256. Thank you for your continued cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Dianne R. Sagner".
